- Rack mounting hardware included
- Bluetooth connection for music playback
- USB playback and record

70V & 100V

VMA Series Amplifiers combine power, efficiency and cost efficiency in a versatile, high-impedance system that:

- Allows one amp channel to drive multiple speakers without complex wiring

- Produces different sound levels to different listening areas using the same amp channel

- Uses smaller gauge, less-expensive cable compared to typical 8 ohm speaker systems

- Expands easily - just add to a speaker run

- Simplifies adding volume control to single- or multiple- speaker zones

Loudspeakers.

JBL® Commercial Series Speakers are designed for a variety of businesses, including retail, restaurants, casinos, convention centers, museums and much more. With ceiling and indoor/outdoor offerings – all providing maximum sound levels – you can choose the speaker system solution that's just right for your business.
